C programming

[Assignments](#) / C programming

Due @ 18:00 on **27 Jan 2023**

Implement a few pure C functions pertaining to simple data structures.

Objectives

After completing this assignment, you should be able to:

- translate high-level data structures into C structures and
- implement data structures code in pure C.

Directions

Read the header files [course.h](#) and [student.h](#). Design the data structures that are described in these header files and implement them in C. Submit your work as `course.c` and `student.c`.

Deliverables

Submit your source code via [Gradescope](#).
